

# Overall Resilience

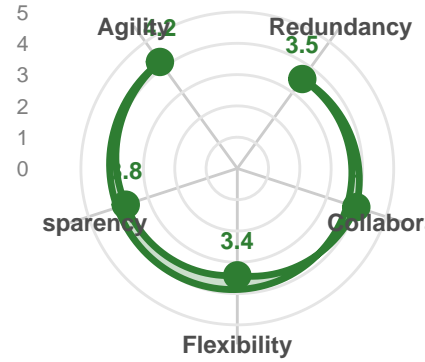

## Upstream

## Internal Operations

## Downstream

### Executive Summary

Overall Performance: 3.3/5.0

#### Key Findings:

- Strongest dimension: Collaboration (3.6)
- Weakest dimension: Redundancy (3.1)
- Performance gap: 0.5 points

#### Recommendation:

Focus improvement efforts on Redundancy to achieve more balanced resilience across all dimensions.

### Upstream Performance Analysis

#### Upstream Analysis

Highest: Agility (3.4)

Lowest: Transparency (2.2)

Average: 2.8

#### Strengths:

- Fast replenishment cycles
- Efficient ordering processes
- Supplier relationship strength

#### Areas for Improvement:

- Limited supplier diversification
- Lack of financial health monitoring
- Insufficient backup suppliers

### Internal Performance Analysis

#### Internal Analysis

Highest: Collaboration (4.2)

Lowest: Flexibility (2.7)

Average: 3.4

#### Strengths:

- Clear cross-functional KPIs
- Strong team collaboration
- Effective problem-solving

#### Areas for Improvement:

- Inadequate risk assessment
- Limited business continuity planning
- Insufficient analytical capabilities
